

Pellet thermostoves

CentroPelet ZV14 i ZV20-32

CentroPelet ZV are wood pellet thermostoves that heats the room with hot air using a fan built in stove (CentroPelet ZV14 has no hot air fan) and hot water through radiator central heating system. They are made out of steel with modern design and high efficiency. Stoves have remote control through which you can control the work and choose the weekly program. They are delivered with built-in pump, safety valve, pressure switch and expansion vessel.

Available in the following colors:

ZV 14

ZV 20,24

ZV 32
